

DIWA-M

MACHINE DISHWASHING DETERGENT

PROPERTIES:

Strongly alkaline phosphate free machine dishwashing detergent. Contains high amount of complexing agents and therefore gives excellent results even with hard water. Prevents the formation of limestone. Emulsifies effectively grease and protein-stains and removes tea and coffee stains. Diwa-M is easily rinseable. Not recommended for aluminum dishes.

PACKAGE:

10 l, 20l plastic canister

DOSAGE:

1-3 g of Diwa-M for 1 l of water.

INSTRUCTIONS FOR USAGE:

Rinse very dirty dishes before the actual washing by water approx. 35°C. Automatic dosage 1-3g/ liter (temp. 55-65°C). The concentration of cleaning solution depends on the contamination of the surface and on the degree of water hardness. **Dose according to the degree of soil, and the water hardness. Follow the dosing instructions.**

COMPOSITION:

Potassium hydroxide 15-30%, complexing agent 15-30%, polycarboxylates, <5% nonionic surfactants

pH:

pH of 1% solution approx. 11

PRECAUTIONARY MEASURES:

Concentrate causes severe burns. Keep locked up and out of the reach of children. Avoid splashes. Avoid contact with eyes. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

ENVIRONMENT:

The package is from PE; clean package can be recycled. Transport packaging consists of reusable corrugated board and polyethylene film. **Using this EU Ecolabelled product according to the dosage instructions will contribute to the reduction of water pollution and waste production.**
