

FUURA

Vehicle pre-soak

RANGE OF USAGE:

For cleaning buses, trucks, haulers, trailers, heavy equipment cars and all rolling stocks from grease, oil, waxes, road film and most soils. Very efficient for pre-soaking at winter time.

PROPERTIES:

Strongly alkaline foaming soaking and prewash agent with rust inhibitors. Complexing agents in solution ensure good washing results even with hard water. Can be used as foam shampoo. Due to its foamy consistency the cleaner also works very effectively on vertical surfaces and does not damage paintwork when using brushes or sponges.

PACKAGE:

25 l plastic canister, 200 l barrel.

DOSAGE:

1:10- 1:20. The concentration of cleaning solution and period of time needed depend on the frequency of cleaning and on the contamination of the surface.

INSTRUCTIONS FOR USAGE:

Apply Fuura onto surface to be treated. Start from the bottom of car and go upwards. Let the solution to work for 3-5 minutes before pressure or brush washing. Rinse with water.

COMPOSITION:

Nonionic surfactants 5-15%, cationic surfactants <5%, potassium hydroxide <5%, polyacrylates <5%

pH:

pH 12,6

PRECAUTIONARY MEASURES:

Concentrate causes severe burns. Avoid contact with eyes and skin and swallowing. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Wear suitable gloves and face protection.

ENVIRONMENT:

The package is from PE; clean package can be recycled. Transport packaging consists of reusable corrugated board and polyethylene film.
